

EDMONTON JUNIOR TENNIS SOCIETY

Quality Standards for kids tennis

Caring Coach

EJTS coaches strive to establish a bond with all children and provide one on one attention with each player. Our coaches are supportive and prepare each lesson with care.

Improvement

EJTS coaches ensure that each child is given the opportunity to improve skills, adjusting the games and exercises to the child's physical capability, with properly matched equipment.

Challenge

We ensure that children are provided appropriate challenge by varying exercises with increasing difficulty, to promote interest in advancing performance, but recognizing different individual abilities.

Active participation

EJTS coaches promote active participation from every child within a controlled and organized environment. Our programs follow the Play-Practice-Play method which is designed to encourage continuous involvement.

Make friends

Our coaches encourage friendship and cooperation between players by promoting team work, seeking to establish a social environment in which children can build friendships while learning and enjoying.

Fun

EJTS aims to help kids fall in love with the sport of tennis. Our coaches strive to develop a fun environment in which kids look forward to attending.
